

EGD (UPPER ENDOSCOPY) INSTRUCTIONS

Five Days Before the Test: _____

- All aspirin and anti-inflammatory medication including, ibuprofen, Motrin, Aleve, naproxen, Naprosyn, sulindac, piroxicam, Feldene, indomethacin, diclofenac and Voltaren **are to be continued**. Tylenol is also safe to continue.
- If you are taking Coumadin, Plavix (clopidogrel), Pradaxa or other blood thinners please contact our office to determine if and when you need to stop these medications.
- If you are diabetic and use insulin, please contact our office for insulin instructions.
- PLEASE call our office if you have any questions about which medication you should or should not take.

Day of Procedure: _____

1. **Do not eat any solid food for eight (8) hours prior to the procedure.** Take only clear liquids by mouth. This includes clear juices (apple, grape, strained orange, strained lemonade), tea, coffee (no milk or creamer), soft drinks, sports drinks (Gatorade, Powerade), clear broth or bouillon, Jell-O and Popsicles. **You may have clear liquids until 4 hours prior to your procedure** then nothing by mouth. Take your essential medications as usual. Dentures will be taken out for this procedure so please do not “cement” them in. **Diabetics: please call the office to obtain special instruction regarding your medications.**
2. **NO DRIVING** – Because of the sedatives that you will be given **you cannot drive for the remainder of the day.** You may use a taxi after the procedure (Unless scheduled at St Luke’s. Their facility doesn’t allow cab use for this purpose). You must have someone present to drive you home after the procedure or we may cancel your exam.

You are scheduled with Dr. _____
